

**Vertafore™**

Unleash your potential

# Vertafore® Hardware and Engineering Services

## **New deployment,** upgrade and system migration.

Vertafore provides a complete IT solution with your software implementation, so you can ensure you have the hardware and network configuration you need to get the maximum performance out of your Vertafore software. Vertafore not only delivers industry-leading software and professional services, but also supports your business with hardware and IT planning expertise so you gain the convenience of a complete solution, a partner that understands your business, and a stable, reliable platform to support your business growth.

### **Gain Peace of Mind**

Vertafore hardware and engineering services ensure your hardware solution is right for your agency. With Vertafore, you gain peace of mind knowing Vertafore manages your entire IT solution, from order to implementation.

Unlike a local solution provider with little or no knowledge of Vertafore's applications and how best to run them, Vertafore is the leading provider of insurance distribution channel solutions, with over 20 years of experience delivering IT solutions for independent insurance agencies.

### **Deploy New Technology Faster by Working with Experts in Insurance**

Vertafore supports your end-to-end solution—from hardware, to software, to services— as you transform your agency with a new deployment. Our insurance experts take an agency-wide view of your software, hardware and goals and make recommendations for improving efficiency and productivity.

### **Gain maximum performance and reduce downtime with your new deployment:**

- Develop a system administration strategy
- Develop hardware recommendations
- Build configuration standards
- Install, configure and support new servers, virtualization, storage, backups, printers and scanners
- Set up remote access
- Automate cumbersome tasks associated with system administration and management
- Plan and implement a backup and disaster recovery solution

### **Gain the Convenience of a Complete Migration Solution**

Are you moving to a new agency management system? Let Vertafore help you migrate easily, with the convenience of a complete software, hardware and services solution. Save time and eliminate your risk of losing valuable data and uptime by working with insurance experts

*“The Vertafore suite of hardware and software solutions has simplified our system management across locations. By migrating to a virtual server environment, we have a stable and secure platform to accommodate our growth.”*

-Steve Quilao and Brian Taleb-Zadeh,  
IT Manager Partners, Edgewood Partners  
Insurance Center (EPIC)

who understand your business, your data and rely on proven hardware technology.

**Optimize your technology investment when moving to a new system:**

- Replace aging hardware with industry-standard technology
- Install and configure new servers, storage, backups, printers and scanners
- Simplify system management with server and desktop virtualization
- Access complete hardware and software support

**Support Your System Upgrade with a Stable Platform**

You already trust Vertafore with the software that is the backbone of your business. Vertafore's proven hardware and engineering services provide a reliable and stable platform to support your business growth. Make sure you have the hardware and services to get the most performance when you upgrade your agency management system.

**Vertafore supports your enterprise system upgrade:**

- Large scale rollouts and upgrades of new or existing PCs
- Software and operating system upgrades
- Server installation, configuration and support
- Implementation of storage area networks (SAN) and server virtualization

**Choose Vertafore for your complete hardware, software and services implementation. To learn more, contact your Vertafore account manager at 800.444.4813.**

Vertafore is the leading provider of software and information to the insurance distribution channel, including independent agents, brokers, MGAs, carriers and reinsurers. Vertafore leverages a unique industry presence to deliver meaningful solutions—powerful technology, critical information and robust insights to help organizations effectively respond to business challenges and capture new opportunities. Vertafore solutions are helping more than 17,000 customers and 500,000 end users gain a competitive advantage to accelerate their business performance.
