Top 5 reasons to choose ImageRight

Built for the insurance industry by insurance professionals, ImageRight eliminates the need to create time-consuming workarounds for your content management needs.

- 1 Focus on content management**
Streamlined design and intuitive interface make it accessible for every employee to navigate, search, and manage files and documents.
- 2 Eliminate workflow bottlenecks**
Intelligent workflow management underpins automated tasks and processes, which helps standardize and expedite underwriting and claims processing.
- 3 Access anywhere, any time**
ImageRight is mobile-friendly and accessible from virtually anywhere on your laptop or tablet.
- 4 Reduce infrastructure complexity**
Vertafore hosting takes care of the hardware, software, and ongoing maintenance for ImageRight, so your IT is free to work on other projects.
- 5 Simplify integration**
RESTful web APIs help streamline integration with core insurance applications.

Business Process Analytics

Visualize workflow trends to reduce task cycle items and increase underwriting capacity

- **Optimize your business processes**
Gain insights into work completed over time to help address inefficient and inconsistent workflows.
- **Deliver consistent customer experience**
Reduce variability in time to complete tasks and deliver consistent, highquality customer service.
- **Improve profitability and drive growth**
Reduce over-staffing during off-peak periods and free up capacity to drive growth for your organization.

“ImageRight has enabled my team to manage tasks, reprioritize them based on business needs, route them appropriately, and take action. As a result, we’ve maintained strong relationships and transparency in our workflow and business volume, capturing valuable insights into our partners’ needs and focusing our efforts on important tasks with custom priorities.”

Heather G.
People Leader, UnitedHealthcare

ImageRight Online

Keep the complexity out of your infrastructure and enjoy even greater productivity with Vertafore's secure, cloud-based hosting option powered by Amazon Web Services (AWS).

Optimize operating expenses

Stretch budgets by shifting capital expenses to operating expenses and benefit from predictable monthly payments that cover software licenses, upgrades, support, and daily back-ups.

Eliminate maintenance overhead

Vertafore takes care of the hardware, software, and ongoing maintenance for ImageRight, so your IT can focus on other business projects instead of maintenance and monitoring.

Always up to date

Automatic upgrades keep you up to date with cybersecurity, compliance, and regulatory changes as well as access to the latest functionality.

Carriers win with ImageRight's intelligent workflows.

FCCI Services, Inc.
