

# Commercial Submissions

powered by **Vertafore**

## The only solution for all your commercial submissions needs

Today, small commercial lines are barely profitable and medium and large commercial lines require a significant amount of effort and time to complete. Commercial Submissions gives you a holistic solution for all your commercial submissions needs, purpose built for Vertafore agency management systems. It provides a simple, consistent workflow to create and submit commercial insurance, no matter the size of the business.

### Small Commercial

AMS360 integration provides pre-fill for about 80% of the typical small commercial submission, drastically cutting the time to prepare by up to 60% and the risk of error. It also frees you from repeatedly entering data on multiple carrier portals. Real-time quoting helps you get your client covered quickly at the best price.

### Mid- to Large Commercial

A large and growing library of ACORD forms and Carrier supplementals simplifies your mid to large-commercial submissions. This frees you from duplicate entries and makes Commercial Submissions a standard solution for all your commercial needs.

### Potential benefits

60% reduction in the time spent processing small commercial submissions

25% reduction in the time to process mid- to large commercial submissions

50% faster quotes to close more business and satisfy clients

\$120 more profit on each small commercial submission

### Features you need

- **Dashboard:** see the status of your submission in one place and have one-click access to update them.
- **Real-time quote:** Get instant pricing indications for small commercial lines like worker's compensation, BOP and general liability from leading carriers. Cut the time needed to respond to clients and have clear visibility to carrier appetite.
- **Forms:** access to a large and growing collection of digitized ACORD and Carrier supplementals for small, mid, and large business means you spend less time filling out forms and create more accurate submissions with less back and forth.
- **AMS integration:** prefill renewals and new business means you spend less time to get more accurate data. Automatically fill up to 80% of fields in the digital forms, saving you time, improving accuracy.
- **Client collaboration:** securely invite your clients to review and selectively edit the submission cutting down on email back and forth.
